

Printing your magazines to the Docucolor:

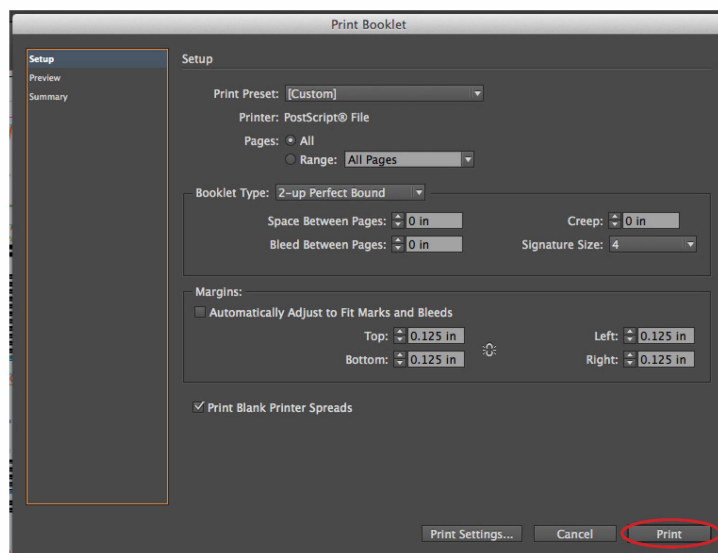

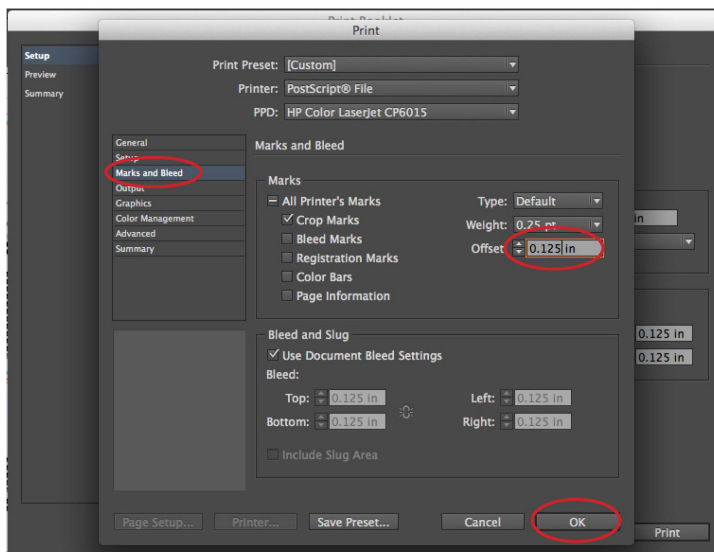

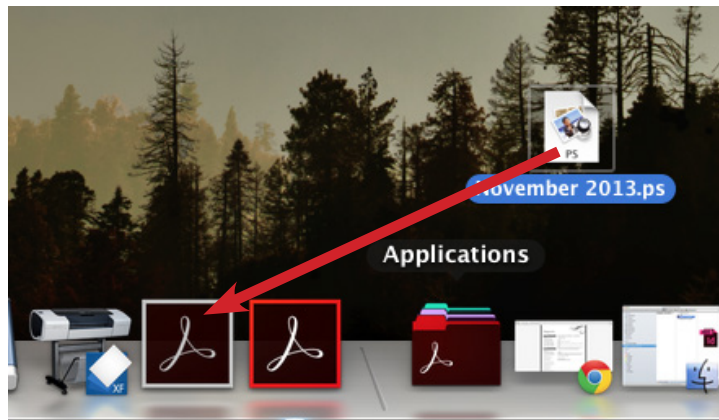

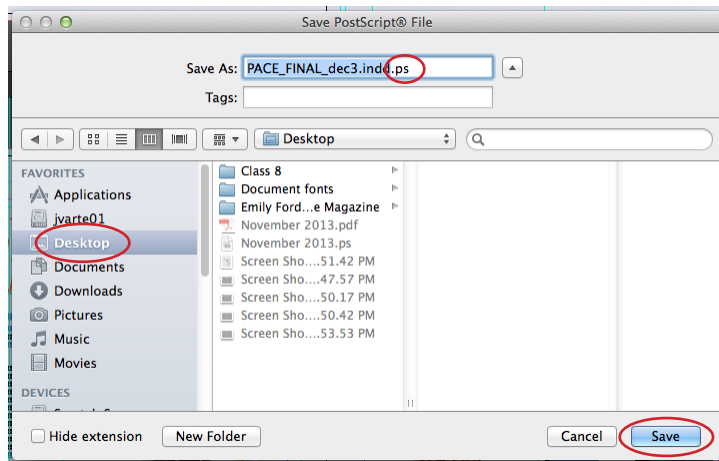

If you are making a PDF
on your laptop your PPD
should read:
Adobe PDF 9.0
rather than
HP Color Laserjet CP6015

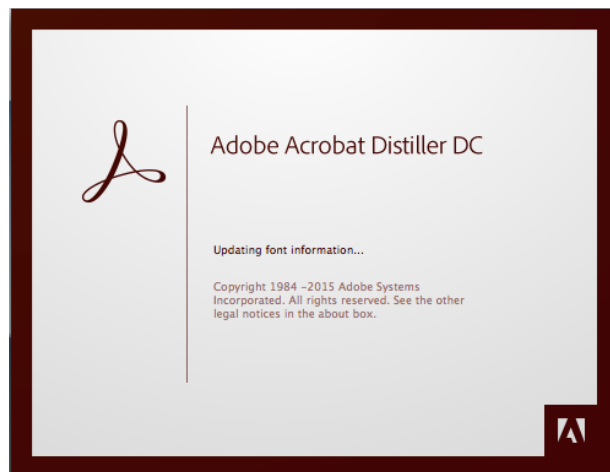

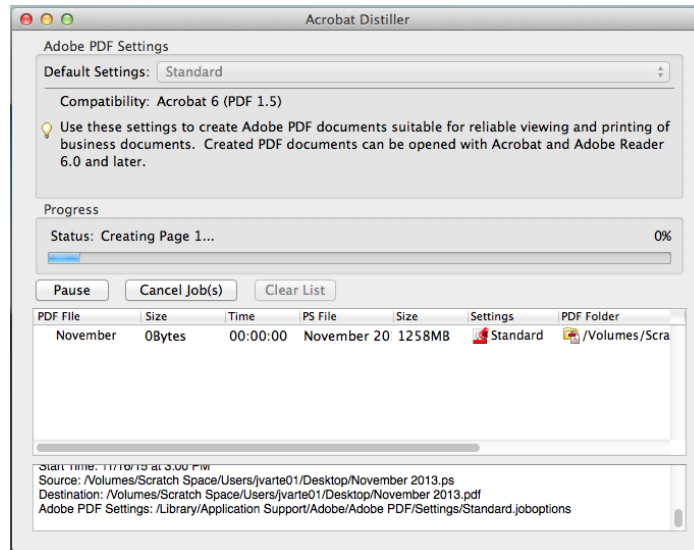

If you are making a PDF on your laptop your papersize should read Custom, rather than 12x18

Drag and drop your postscript file onto the Acrobat Distiller icon

Drop your PDF into the Docucolor folder, right click on your file, and follow the next PDF for setting the Docucolor presets.

Load 12 x 18" paper into the docucolor's manual feed.
Press print on the docucolor.
