

Project # 2 - Stylized Design

PROJECT DESCRIPTION:

Create a cohesive, expressive, stylized design from an image of an item or object you choose. This is not an illustration of an item, this is a **stylized expression** of the object.

PROJECT OBJECTIVES:

Create a cohesive, expressive, stylized design from an image of an item you choose and produce the final file in Adobe Illustrator.

Choose an image of a single object that you are going to graphically translate into a **simplified, cohesive, expressive, stylized design**. You cannot use a picture of a person.

Solutions are to be sketched out first and approved before moving onto the computer to create your final files as a vector file in Adobe Illustrator.

Final files are to be black and white only.

No color, no shades of gray ONLY black and white.

DIMENSIONS:

Dimensions: Final files are to be no larger than 8" x 8"

DELIVERABLES:

Sketches of possible solutions

The original image which you based your graphically styled design from

Digital file created in Adobe Illustrator of your final solution.
