

## Letter Anatomy

Please label at least 3 parts of anatomy for EACH letter.

Agh

Sentence Anatomy: Please identify and label the following:

1. Typeface classification
2. Baseline
3. Median
4. X-height
5. Cap-height
6. Ascender height
7. Descender height
8. Mark the stress

x Quiet please. x

## Typeface Design Choices:

There are 3 lowercase alphabets on the page. Identify which classification each belongs to then study the characteristics of each typeface. What features unify the family? Draw in the missing letters for one of these alphabets in a way that keeps unity within the family. (*Don't worry about creating perfection with your letterforms, this exercise is to better understand concept, intention, visual unity and anatomy*)

b c d f h i j l m n o p q u v w y z

**b c d f h i j l m n o p q u v w y z**

b c d f h i j l m n o p q u v w y z
