

Ji Lee

1971 –

“Personal projects make me happy and lead me to the jobs I love...
I think there are opportunities to bring these two worlds together, and
when it happens it can be awesome.

It's all about having fun.
If it's fun, I'll always find time for it.

Personal and professional projects complement each other.

Never put all mu eggs into one basket.

Ideas are nothing. Doing is everything.”
