How to make a postscript file/PDF on your own laptop:

Ed found a PPD that you can download to your laptop so that you can use your own laptop to make a postscript file/PDF file for printing your magazine.

Here are his directions:

Go to >>

<https://forums.adobe.com/message/8121624#8121624>

Download the pdf 9 PPD and go to Applications>Indesign>presets>

Now make a new folder named "PPDs" if one is not there, and drop the PDF9 PPD in.

Open up Indesign and use the following PDFs to make your postscript/PDF file.
